GROUP CLASS SCHEDULE FOR HHF/PP - UPDATED MAY 2019

CLASS KEY

Abs and Glutes: Taught by one of Project Pilates instructors, this class will target strengthening you abs and glutes. Don't miss it!

Hatha Vinyasa: Flow and Let Yourself Go. Finish off your day with this rejuvenating and revitalizing class, beginning with an asana flow and ending with restorative poses.

Indoor Cycling: Increase your heart rate, listen to some music and sweat the work week out with one of our certified instructors.

Kettlebell Cardio/ Kettlebell Strength: Build strength, speed, power, and cardio endurance using kettlebells, a centuries-old training tool originating in Russia. When swung properly by their thick handles, the round weights use nearly every muscle in the body to counteract momentum. Classes incorporate a combination of ballistic (explosive) swinging movements and more traditional press and squat exercises.

Natural Mobility: Focus on skills like balancing, jumping, throwing, carrying, catching and a variety of mobility drills to improve movement function and reduce pain. Class goal is to rejuvenate the nervous system and reactivate "sleepy muscles" so you leave this class moving better and with more energy.

Power Vinyassa: Class combines the physical and mental benefits of a Vinyasa practice with an upbeat playlist. A series of traditional yoga poses are taught in a flowing movement pattern designed to increase your heartrate, strength, flexibility and balance, while maintaining a connection to your breath. The class is perfect for everyone.

Rhythm Ride: Rhythm Ride is driven by the beat of an incredible playlist. You'll get a total body workout on the bike while navigating through a combination of heavy hills, fast sprints and fun choreography all to the beat of music.

Spin/Stretch/Sweat is a spin based full body, high intensity, workout program inspired by various cycling and aerobic classes. Separating 60 minutes in 6 section, CSR focus on fat burning, flexibility and endurance while playing a variety of good music at the same time.

Spintervals: Learn form and technique. Understand the relationship between RPMs and resistance. Workout that burns calories fast but you don't need your helmet ;)

Strength & Length: Build strength and release tension and lengthen your body with Pilates. A full body workout taught by a Pilates instructor. Great any day of the week! Appropriate for all levels and abilities including injuries and pregnancy (please consult instructor about any conditions).

Stretch & Release: Foam rollers, pinky balls and thera bands, oh my. Stretching not only feels good it is good for you!

Structural Flow: Class begins with a Sun Salutation and moves through strong standing poses, seated poses and restorative poses. Students are encouraged to become mindfully aligned in poses. Class is appropriate for all levels and all abilities including injuries and pregnancy.

Total Body Fit: A vigorous circuit class incorporating indoor cycling, kettlebells, agility exercises, hand weights, stability balls, steps, jump ropes, TRX, battle ropes, and more.

TRX suspension training system is a great system to use that adds strength, lean muscle, and will improve conditioning.

TRX Turn Up: The TRX suspension trainer will be the primary source of this workout but it will be mixed with other training equipment such as rowers, dumbbells, kettlebells, etc. Class purpose: strengthen your body while torching calories all at the same time!

Vinyasa Yoga: Focusing on synchronization of breath with continuous flow of movement. Builds heat, endurance, flexibility, strength and mental focus, incorporating uplifting music.

Water Bootcamp: Intense, low-impact, 55-minute water workout using buoyant weights, water resistance, and gravity to tone your muscles and your heart in record time.

PILATES

Pilates Equipment Classes: (Designated in colored boxes) Pilates reformer, towers, ladder barrel and wunda chairs - oh my! Class capacity of only 4 people, reserve your spot in advance. Book online or with the receptionist. If waitlisted, you will be notified of a cancellation prior to class.

Pilates Mat Fusion: (A mat class) Look for the basics of Pilates inspired instruction with emphasis on, length and alignment, exercise modifications, core strength and stability including abs, shoulders, and pelvis, integrated breathing, and a sense of the Pilates principles.

Pilates Mat: This simple but effective core workout will strengthen mind body and spirit. Utilizes Joseph Pilates' techniques with only minimal props and body weight.

CLASS POLICIES

1. Online Enrollment is available for each class using the MindBody website or mobile app. One hour or more advance notice is required for cancellation of all group classes. (Pilates equipment classes require 24 hour notice for cancellation.)
2. Please check in with reception prior to going to class.
3. Please mention any physical limitations or injuries to the instructor before class.
4. Be mindful of other classes happening or finishing up; please walk through the Pilates studio quietly.
5. Please silence your cell phone before entering class.
6. Life happens! But please don't enter class more than 10 minutes late.
7. Clean your equipment before and after use.
8. Please be considerate of your fellow class-goers and use deodorant.

Classes in white boxes are at HHF

Classes in blue boxes are at PP
