# GROUP CLASS SCHEDULE FOR HHF/PP - UPDATED MARCH 2020

## CLASS DESCRIPTIONS

**Abs and Glutes:** Taught by one of Project Pilates instructors, this class will target strengthening you abs and glutes. Don't miss it!

**Cardio Strength:** A high energy mixed-format class geared towards pushing the body to its limits. Gain strength, coordination, balance and cardio-endurance with HHF's one and only - Danie!

**Hatha Vinyasa:** Flow and Let Yourself Go. Finish off your day with this rejuvenating and revitalizing class, beginning with an asana flow and ending with restorative poses.

**Kettlebell Cardio/ Kettlebell Strength:** Build strength, speed, power, and cardio endurance using kettlebells, a centuries-old training tool originating in Russia. Classes incorporate a combination of ballistic (explosive) swinging movements and more traditional press and squat exercises.

**Rhythm Ride:** Rhythm Ride is driven by the beat of an incredible playlist. You'll get a total body workout on the bike while navigating through a combination of heavy hills, fast sprints and fun choreography all to the beat of music.

**Spintervals:** Learn form and technique. Understand the relationship between RPMs and resistance. Workout that burns calories fast but you don't need your helmet ;)

**Strength & Length:** Build strength and release tension and lengthen your body with Pilates. A full body workout taught by a Pilates instructor. Great any day of the week! Appropriate for all levels and abilities including injuries and pregnancy (please consult instructor about any conditions).

**TRX** suspension training system is a great system to use that adds strength, lean muscle, and will improve conditioning.

**TRX Turn Up:** The TRX suspension trainer will be the primary source of this workout but it will be mixed with other training equipment such as rowers, dumbbells, kettlebells, etc. Class purpose: strengthen your body while torching calories all at the same time!

**Vinyasa Yoga:** Focusing on synchronization of breath with continuous flow of movement. Builds heat, endurance, flexibility, strength and mental focus, incorporating uplifting music.

**Yoga - Calm, Empower, Flow:** Beginning with Sun Salutations to warm the body, Class will move through stabilization and strengthening poses, back strengthening asanas and Stretch.
